In 2004 Vigo became the most successful new 4x4 pickup in the history of the pickup introduction. For two years, Toyota could not produce enough of them and sold Vigoes at a premium, all through 2005 and 2006 we were shipping hundreds of Vigoes every week. When Vigo market slowed in 2007, Toyota was quick to come up with discounts and we, in keeping up with our 99 years tradition, passed these savings to our customers and our Vigo momentum picked its pace again and has done so till now. Arrival of 2009 Vigo had come just in time to keep Vigo phenomenon going strong. Vigo phenomenon is now doubly strong because used Vigo is just as popular as new Vigo once was in the past while brand new Vigo is still winning new converts worldwide.
